PROFILE

I am a highly proactive and adaptable software engineer with a proven track record in designing and implementing robust software solutions within dynamic and agile environments. My passion is deeply rooted in crafting user-centric, scalable, and exceptionally efficient applications. I thrive on overcoming challenges and firmly believe every problem presents a valuable opportunity for continuous learning and personal growth. My dedication to excellence and commitment to staying at the forefront of technology drives me to deliver high-quality results consistently.

PROFESSIONAL EXPERIENCE

July 2023 – present Lagos, Nigeria

CentBit, Backend Engineer

- Developed backend solutions utilizing JavaScript and TypeScript programming languages.
- Leveraged Amazon Web Services (AWS) cloud services, including Amazon SQS, SNS, and SES, to architect and implement a lambda function as part of the application infrastructure.
- Designed and integrated serverless components, creating a responsive and scalable system.
- Collaborated with cross-functional teams to ensure efficient communication and alignment of technical objectives.

October 2022 – present Lagos, Nigeria

Decagon, Software Engineer

- Utilized Javascript, TypeScript, and React.js to build interactive and dynamic user interfaces.
- Implemented best practices and design patterns to deliver maintainable and extensible code.
- Handling Database Management Systems with SQL like MySQL, Postgres, Sqlite, and NoSQL databases like MongoDB.
- Utilized Docker for software deployment and orchestration.
- Writing unit and integration tests using Jest.
- Exposure to Agile Methodologies (SCRUM) while developing applications.
